

Directions to our farm:

On the national ring road no. 1 between Selfoss and Hella you turn at the sign "Gíslholt 284", after 6 km you come to our farm, total distance from Reykjavík 80 km.

HERRÍÐARHÓLL

We offer on Herríðarhóll:

- riding tours of several days, day trips and shorter rides
- bed and breakfast in comfortable double rooms, lunch and evening meals available
- hot pot directly at the house or natural hot spring in one of our meadows
- a personal atmosphere, small groups of not more than 10 guests
- a central location in the South of Iceland, well situated for a large number of places of interest and natural beauty

We are looking forward to welcoming you to take part in our farm life, experience the animals and beauty of the landscape.

Our farm:

We are a german-icelandic family and are farming 400 ha with milking cows, sheep and horses. Our farm Herridarholl is situated between the river Pjorsa and the lake Herruvatn on a hill with a view onto glaciers and vulcano Hekla. We live in beautiful surroundings in the countryside just one hour´s drive from the capital Reykjavik.

Your vacation:

During the summer months our home is open to guests. We offer accommodation in five comfortable and cozy double rooms. You choose between breakfast only, two meals or three meals a day. You can enjoy beautiful view from our sunny common room and our sheltered deck. As special treat you can take a dip in our hot pot directly at the house or in our natural hot spring with is near the farm in the middle of a hilly meadow. We welcome families, horse riders and non riders alike and gladly help you to put together your own personal tour plan.

The horses:

For generations there has been horse breeding on Herridarholl. We value a sound character and good tölt in our horses. Out of our breeding we have had a number of horses shown very successfully. All our horses are thoroughly trained by us before we use them on trails or offer them for sale.

The riding tours:

The best way to experience Iceland´s wonderful nature is to go on extended rides in small groups with some spare horses on the lead. We choose our trails to show you exceptional landscapes and beautiful scenery: along rivers, past waterfalls and bizarre lava formations, to the foot of the vulcano and to the black sandy beaches of the North Atlantic. After enjoyable rides in tölt - the icelandic´s horse´s special and very comfortable gate - the riders return to our comfortable farmhouse in the evenings while the horses stay on pastures along the trail.
